Optimize your website for SEO

Feb 20, 2019

Github

Some tips to optimize your website for SEO.

<https://github.com/Zenoo/seo-optimization>

FullStack Typescript Monorepo, using NPM workspaces. Prisma +

NodeJS + React + MUI

<https://github.com/Zenoo/fullstack-typescript-monorepo>

react-append-head

Sep 2019 - Present

Append JS & CSS files to the document's head without duplicates

<https://github.com/Zenoo/react-append-head>

VideoInputPreview

Jun 2019 - Present

A Javascript tool that allows you to show a preview for your video inputs before actually uploading the file.

<https://github.com/Zenoo/video-input-preview>

Quiz.js

Mar 2019 - Present

A Javascript tool to create quizzes easily

<https://github.com/Zenoo/Quiz.js>

CSS3 Cube

Feb 2019 - Present

A canvas-free, CSS3 cube. I created this to demonstrate the immense capabilities of the CSS3.

<https://github.com/Zenoo/CSS3-Cube>

FormulaJS

Feb 2019 - Present

A Javascript tool that allows the user to input a custom formula, within your limitations.

<https://github.com/Zenoo/FormulaJS>

LightQuery

Jan 2019 - Present

10 times smaller than jQuery (90kB => 9kB). This is a complete rewrite of the well-known jQuery library. Every method has been rewritten or replaced by another method.

<https://zenoo.github.io/LightQuery/>

ImageInputPreview

Dec 2018 - Present

A Javascript tool that allows you to show a preview for your image inputs before actually uploading the file.

<https://github.com/Zenoo/image-input-preview>

ImageResize

Dec 2018 - Present

A Javascript plugin that allows you to resize your Image objects or files from your image inputs directly.

<https://github.com/Zenoo/image-resize>

AjaxSender

Oct 2018 - Present

A Javascript tool that allows you to easily send AJAX requests. Available in Browser & NodeJS.

<https://github.com/Zenoo/ajax-sender>

Oct 2018 - Present

A Javascript tool that allows your users to calculate an estimate of the cost of their move

<https://github.com/Zenoo/moving-cost-calculator>

AddressSearch

Aug 2018 - Present

A Javascript tool for address searching with typeahead and multiple choices. Uses Google Places API.

<https://github.com/Zenoo/address-search>

SlickComplete

Jul 2018 - Present

A Javascript tool for an easy input autocomplete.

<https://github.com/Zenoo/slick-complete>

AjaxTable

May 2018 - Present

A Javascript tool that handles your table displays asynchronously

<https://github.com/Zenoo/ajaxTable>

ExcelExport

May 2018 - Present

A Javascript tool to export your HTML tables to an Excel file

<https://github.com/Zenoo/excel-export>

SlickLoader

May 2018 - Present

A loader to use during your AJAX calls or your data processing.

<https://github.com/Zenoo/slick-loader>

QuickModal

Nov 2017 - Present

A Javascript tool that allows you to create modals easily.

<https://github.com/Zenoo/quickModal>

jQuery-csvExport

May 2017 - Present

A Javascript tool that allows you to export your HTML tables to .csv files

<https://github.com/Zenoo/JQuery-csvExport>

jQuery-pageScroller

May 2017 - Present

A jQuery plugin that allows you to create one-pages easily.

<https://github.com/Zenoo/JQuery-pageScroller>

OfflineHandler

A Javascript tool that allows your websites to be offline-accessible without going through all the trouble of setting it up yourself

<https://github.com/Zenoo/offline-handler>
